## **PURPOSE OF THE CONSOLIDATED PLAN**

The Consolidated Plan is an application by the Hawaii Housing Finance and Development Corporation (HHFDC) to the U. S. Department of Housing and Urban Development (HUD) for funding through the HOME Investment Partnerships Program (HOME), the American Dream Down-payment Initiative (ADDI), the Emergency Shelter Grants Program (ESG), and the Housing Opportunities for Persons with AIDS (HOPWA). These funds are utilized in the Counties of Hawaii, Kauai, and Maui. The City and County of Honolulu receives a direct allocation from HUD.

The Consolidated Plan process is mandated by HUD to ensure that jurisdictions receiving direct federal assistance utilize and develop a plan for its housing and related needs of very low-, low- and moderate-income families in a way that improves the availability and affordability of decent, safe and sanitary housing within a suitable living environment.

In December, 2009, the Hawaii Housing Finance and Development Corporation (HHFDC) adopted the Consolidated Plan for the period July 1, 2010 through June 30, 2015. The HHFDC administers the HOME program, and the State's Department of Human Services - Benefits, Employment and Support Services Division administers the ESG and HOPWA programs. The Consolidated Plan established these priorities:

- Construction of affordable rental units for both the general population and for special needs populations;
- Provision of tenant-based rental assistance;
- Development (new construction or rehabilitation of existing buildings) of transitional housing units;
- Project development and construction of affordable for-sale homes;
- Provision of down-payment/closing cost assistance and gap loans;
- Provision of homebuyer education and counseling sessions;
- Funding for operations of shelters for the homeless and for victims of domestic violence, including the transition to permanent housing;
- Rental and housing information assistance to persons with HIV/AIDS;
- Support for fair housing education and training;

For each year in this 5-year period, the HHFDC develops an Annual Action Plan and a Consolidated Annual Performance and Evaluation Report. The Annual Action Plan describes how funds will be spent in the specific program year, and the Consolidated Annual Performance and Evaluation Report evaluates the actual use of funds during the program year.

Citizens may participate in the planning process through public hearings on needs and priorities and through the 30-day review and comment period on the Consolidated Plan, Annual Action Plan and any substantial amendments.

**HOME INVESTMENT PARTNERSHIPS PROGRAM**  
**(Program Year 2011-12)**

The HOME Investment Partnerships Program (HOME) is a federally-funded program which was created by the National Affordable Housing Act of 1990. This program is intended to be a locally designed and administered program which: 1) expands the supply of decent, safe, affordable, and sanitary housing, with primary attention to low income rental housing; 2) strengthens the abilities of state and local governments to design and implement affordable housing strategies; and 3) provides both federal financing and technical assistance.

According to the HOME Program regulations, the State of Hawaii (the "State") is the Participating Jurisdiction (PJ), and the Hawaii Housing Finance and Development Corporation (HHFDC) is the agency designated to administer the HOME Program for the State. The HOME Program requires that all HOME funds be utilized to assist households earning 80% or below of the area median income.

Each year, the U.S. Department of Housing and Urban Development (HUD) determines by formula the amount of HOME funds that States and units of local governments are eligible to receive. In PY 2011-12, the State anticipates receiving \$3,043,720 in HOME funds. The State distributes its HOME funds in accordance with the State Consolidated Plan which provides information on the State's housing needs, primarily in the counties of Hawaii, Kauai, and Maui, and a strategic plan to address those needs. The State has designated the counties of Hawaii, Kauai and Maui as HOME State Recipients to administer a share of the State's HOME funds to address their respective housing needs.

HOME funds can be used to expand and/or preserve the supply of safe, decent and affordable rental housing. This includes new construction or acquisition and/or rehabilitation of rental housing units affordable to very low and low-income families. HOME funds also can be used for tenant-based rental assistance and new construction, acquisition and/or rehabilitation of housing for homeownership.

The State's HOME Program encourages any program or activity funded in whole or in part with HOME funds to avoid the displacement of individuals and families unless it is the only practical alternative. Should HOME funds be utilized for such an activity, the HHFDC as well as the State Recipients, will comply with Section 104(d) of the Housing and Community Development Act of 1974, as amended, and the Uniform Relocation Act, which is detailed in the State's HOME Partnerships Program Residential Antidisplacement and Relocation Assistance Plan.

**EMERGENCY SHELTER GRANTS (ESG) PROGRAM**  
**(Program Year 2011-12)**

The Emergency Shelter Grants (ESG) Program, authorized by 24 CFR part 576, provides grants to states, local governments, and to private nonprofit organizations to either improve the quality of existing emergency and transitional shelters for the homeless or through the rehabilitation or conversion of buildings to help make available additional homeless shelters. Grants can also be used to pay certain operating and social service expenses in connection with emergency shelter for the homeless, and for homeless prevention activities. This allows these persons to have access not only to safe and sanitary shelter, but also to supportive services and other kinds of assistance needed to improve their situation.

The State anticipates receiving \$232,890 of ESG funds for 2011-2012.

**HOUSING OPPORTUNITIES FOR PERSONS WITH AIDS  
(Program Year 2011-12)**

The Housing Opportunities for Persons with AIDS (HOPWA) Program, authorized by 24 CFR part 574, provides resources and incentives to states, local governments, and private nonprofit organizations to devise long-term comprehensive strategies for meeting the housing needs of persons with acquired immunodeficiency syndrome (AIDS) or related diseases and their families. HOPWA funds may be used to assist all forms of housing designed to prevent homelessness including emergency housing, shared housing arrangements, apartments, single-room occupancy (SRO) dwellings and community residences. Also allowed are housing information services; resource identification; acquisition, rehabilitation, conversion, lease, and repair of facilities to provide housing and services; new construction for SRO dwellings and community facilities; project or tenant-based rental assistance; short-term rent, mortgage, and utility payments to prevent homelessness of the tenant or mortgagor of a dwelling.

The State anticipates receiving \$181,691 of HOPWA funds for 2011-2012.
